“I needed a solution that could go **cross-platform**. It had to be able to be deployed in the iOS environment, Android environment and Microsoft Surface, which is what our field sales staff utilizes. **So I chose Resco.** **Flexibility was really, really critical.** We have a number of processes which are unique to us and with Resco I was able to see that we had the capability of going there.”

“... this 350,000 dollars a month in increased revenue actually came on the heels of deploying the **inspections tool**...”
